WOMEN Spring/Summer 2011

The new spring/summer collection by Milestone focuses on sportiness and variety. The jacket specialist from Lenting presents a fashionable collection which is extremely well thought out, right down to the finest detail.

For the **textile collection**, particular attention is paid to various types of cotton, ranging from interesting washes and garment-dyed cotton to coated products. As a contrast to this, we continue to offer popular technical fabrics, as well as shape memory and functional clothing. Sporty jackets have been reinterpreted with the help of special embroidery, prints and detailed inner linings.

Sophisticated cuts ensure that the parka will be a trendsetter this season, while the classic trench is redefined with new shapes and interesting details. A new label offers a small selection of sporty and exciting models. This range fascinates through its sophisticated details, and is ideal for women who are looking for that something special.

We focus on a play on contrasts, including both subtle contrasts in white with beige, as well as more striking contrasts involving taupe and raspberry. Combinations of materials, such as jersey and nylon, are another highlight of the collection. Military jackets in eye-catching garment-dyed cotton, decorated with lavish emblems, embroidery and high-quality buttons are a trendy highlight.

A harmonious mix of sand tones is freshened up using off-white and dusty blue colours. These are coupled with subtle colours such as taupe, khaki and classic black, as well as stronger colours, including raspberry, navy and gleaming white. Garment-dyed cotton shines in summery colours such as aqua, dirty rose, sand and apple.

The **leather collection** contains a wider range of fashionable items than ever before. Thanks to new tanning and washing techniques, various new types of leather have been developed, which lend the collection a summery feel.

Biker jackets with an extremely fashionable dirty look or rub-off leather in dirty white or aqua shades incorporate the desired summer freshness into the collection. Lavish linings and sophisticated cuts give biker jackets a fashionable edge. Bikers and blazer models with pagoda shoulders, lavish emblems and rivets in new grey and classic black provide the ideal backdrop for the glam rock theme, especially when combined with matching drainpipe trousers.

Shirt styles, denim jacket styles and sporty short or long jackets with short or 3/4-length arms as well as coats and parka styles in various lengths complete the theme. Various models with sophisticated textured details, combined with dresses, shirts, vests or tunics, turn each outfit into an eye-catching whole.

Light and unlined goat velour leather is presented in a whole new light thanks to fashionable jackets and coats with waterfall collars. We also offer a small safari collection in washed velour leather with subtle contrasting topstitching. This is where you can find jackets and shirts as well as matching trousers and skirts.

Colourful velour leather jackets in soft, washed pig leather complete the collection and also form the entry-level price range in our collection.

Colour-wise, the collection is presented in new natural shades – from ivory and light beige with a light-grey shimmer to nude shades complemented with nuances of blue. The fashionable summer colours of aqua green, aqua blue, lemon green and dirty pink help to emphasise the luxurious natural tones.
