

## Women spring/summer 2010

The current Spring/Summer collection from Milestone shines because of its new variety of materials and shapes. The passion for sporting extravagance distinguishes the continually growing company's new collection. Sophisticated details, exclusive colours and innovative styles ensure a striking appearance.

High quality cotton with a new glossy coating, polyester-nylon, shape-memory and easily washable linen qualities lend the **Textile Collection** a striking, myriad of features. Sporty styles with a new interpretation in technical materials underline the innovative character. Classic cuts but also young bomber jackets and oversized tartans in navy, grey and white, give optimal wearability. Trench types are the new interpretation of the parka, the trendsetter of the season. Jackets with and without belts are put under the spotlight with effective gathers and play interestingly with lengths. Multi-faceted collar variations and exciting cuts exemplify the trend. Innovative bomber jackets but also classic blazers with added embroidery and exclusive details are a trendsetting focus. Noble, muted shades such as off white, sand and khaki, but also darker shades such as navy and chocolate stand out alongside concentrated colours such as mustard, coral and aqua. The colour programme is rounded off with white, black and discreet grey.

In the Milestone **Leather Collection** the variety of the different qualities ranges from the finest lamb leather, through stamped leather up to washed goat velour that is processed unpadded. Lamb qualities, garment dyed, hand-made and classic foliage colouring are also in fashion, as are discreet finishing, lending the collection an exclusive look (hand sprayed, individual look). Different types of biker jacket are a must for every season. As sporty as they are extravagant, with metallic elements, strikingly placed zips or in a pared down style, they present themselves with a great love of detail. The myriad features of the leather collection are characterised by innovative types of blazers, blousons, jackets in a trendy safari look and various types of coats. Alongside the deftly placed printed and embroidered motifs inside the jackets, the re-interpreted fringed jackets and waistcoats set the tone.
